

## WELCOME MESSAGE FROM THE EDITOR

Dear All,

With immense pleasure and privilege, on behalf of the editorial team, I extend warm welcome to the readership on Launch of our inaugural, Peer Reviewed Open Access Online Parul University Journal of Health and Research (PUJHSR). I also take this opportunity to thank Editors, Authors and anonymous reviewers, who have volunteered to contribute to the success of this event.

We know that last two years, we experienced the most horrific pandemic which brought down the entire world to a grinding halt. It not only had economic impact but it also took psychological toll of many. With over millions deaths due to COVID 19, the infectious disease took the centre stage in health once again. During this period of inertia the scientific community was not standing still. Thanks to those hundreds of scientists who worked relentlessly, even sometime putting their health and life at risk, to search an efficacious vaccine to fight this battle with invisible enemy.

I would like to thank all the teachers who were grappling with new online education modalities. Every teacher, especially the senior ones, had hard time getting adapted to online teaching. Now it sounds funny when we remember the way the on-line classes were conducted from home. We could see the cluttered rooms and other family members walking inside during the class. We used to ask students, “Am I audible or could you see the screen!” all the time. We sailed safely through that difficult time. The world is gaining momentum once again and people are discussing new things.

Parul University Journal of Health and Research (PUJHSR) is Bi-annual, Peer reviewed open access ONLINE journal in the field of Health sciences. The journal welcomes scientific community from the field of Medicine, Pharmacy, Homeopathy, Ayurved, Physiotherapy, nursing and Allied Health science to submit their valuable research articles for publication. The journal will cover original Research articles, case reports/ case studies/Case series, Review articles (Including short Review), Letters to the editor and Short communications.

Every publication will undergo strict review and articles with scientific / Study value will be given preference. The journal's editorial board strongly believes to provide science-driven, peer-reviewed articles conforming to the strict international processes and editorial standards expected by the scientific community.

I thank the management and my colleagues for electing me for this post. We, the editorial team, will put in the best of the efforts to initiate and perpetuate this work of scientific exchange.

Once again I welcome you all to this journal – our journal! With your support as authors, reviewers, and editors, I see very bright prospects for PUJHSR to serve science and the scientific community even better in the future.

We welcome your feedback!

**Prof. Dr Anant Marathe.**  
*Editor-in-Chief*
